

8th International Beam Instrumentation Conference

Sunday, 8 September 2019 - Thursday, 12 September 2019

Malmö, Sweden

Scientific Programme

01-Overview, commissioning, and lessons learned

02-Beam charge and current monitors

03-Beam loss monitors and machine protection

04-Beam position monitors

05-Longitudinal diagnostics and synchronisation

06-Transverse profile and emittance monitors

07-Data acquisition and digital architecture

08-Feedback and beam stability

09-Machine measurements and novel techniques
