

4th International Workshop on Accelerator Radiation Induced Activation (ARIA'17)

Monday, 22 May 2017

Reaction models, Programs and Data libraries - Gästmatsalen (09:20 - 11:10)

-Conveners: Stuart Ansell; Jean-Christophe Sublet

time	[id] title	presenter
09:20	[32] Nuclide production in spallation reactions: How useful are the simulations?	Dr DAVID, Jean-Christophe
09:40	[10] FISPACT-II & TENDL: developments to model high-energy activation, transmutation processes and radiation damage source terms	Dr SUBLET, Jean-Christophe
10:30	[12] High-Energy Activation Simulation Coupling TENDL and SPACS	Dr FLEMING, Michael
10:50	[96] Development fast generic activation code for high-complexity models	Dr ANSELL, Stuart
